Art Unit: 1746

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 16, 57 and 58 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hoffer et al. (U. S. Pat. No. 5,806,542) in view of Jones et al. (U. S. Pat. No. 6,571,824)

Re claim 16, Hoffer is cited disclosing a method of washing a vehicle utilizing a gantry style vehicle wash system (see fig. 1), wherein the gantry is moveable from a forward position in front of a vehicle to a rear position that is behind the vehicle, the movement of the gantry over and around the vehicle from either a forward or rear position to the other position defining a pass, the method comprising the step of supplying a presoak (see col. 7, line 64 through col. 7, line 9) in one pass (see col. 10, lines 41-49) that differs from the claim only in the recitation of the simultaneously application of a spot-free rinse and clear-coat. Jones is cited disclosing the step of providing a spot-free rinse and the application of a clear-coat simultaneously (see col. 4, lines 52-62 where there is disclosed that various chemicals may be injected together). It therefore would to modify the method of Hoffer to simultaneously employ a spot-free rinse and clear-coat as taught by Jones for the purpose of eliminating a separate step. Re claim 57 and 58, Hoffer discloses the deactivation after the dwell and the application of cleaning fluid after the dwell (see col. 10, lines 5-44).

3. Applicant's arguments with respect to claims 16, 57 and 58 have been considered but are moot in view of the new ground(s) of rejection.
4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
